Immunizations Required for Kindergarten and 6th Grade Entry in South Dakota

South Dakota Codified Law 13-28-7.1 (Rev. 2016) requires that any pupil entering school or an early childhood program in this state shall, prior to admission, be required to present to school authorities certification from a licensed physician that the child has received, or is in the process of receiving, adequate immunization against poliomyelitis, diphtheria, pertussis, rubeola (measles), rubella, mumps, tetanus, meningitis and varicella (chickenpox), according to the recommendations of the State Department of Health.

This law applies to ALL children entering a South Dakota school district for the first time. This would include children in early intervention programs, preschool, as well as kindergarten through twelfth grade. Children under 4 need to be age-appropriately immunized.

Minimum immunization requirements for kindergarten through twelfth grade are defined as receiving at least:

1. Four or more doses of **diphtheria, pertussis and tetanus containing vaccine**, with at least one dose administered on or after age 4. Children 7 years or older needing the primary series only need three doses. Children receiving six doses before age 4 do not require any additional doses for kindergarten entry. The maximum a child should receive is six doses. If a child 7 years or older has an incomplete DTaP primary series, please contact the Department of Health for assistance.
2. Four or more doses of **poliovirus vaccine**, at least one dose on or after age 4. *(Although not the recommended schedule - if a child has three doses of polio with the third dose administered on or after the age of 4 and at least 6 months after the second dose, no other doses are required.)*
3. Two doses of a **measles, mumps, and rubella vaccine (MMR or MMRV)**. The minimum age for the first dose is 12 months. Administer the second dose routinely at age 4 through 6 years. The second dose may be administered prior to age 4 provided at least 28 days have elapsed since the first dose.
4. Two doses of **varicella vaccine (Varicella or MMRV)**. The minimum age for the first dose of varicella (chickenpox) vaccine is 12 months. History of disease is acceptable with parent/guardian signature. Administer the second dose routinely at age 4 through 6 years. The second dose may be administered prior to age 4 provided the minimum interval between the two doses is 3 months.

REQUIREMENTS FOR 6TH GRADE ENTRY:

5. One dose of **Tdap** is required for 6th-grade entry **IF** the child is 11 years old. If the child is 10 years old when entering 6th-grade they have **45 days** after their 11th birthday to receive the Tdap vaccination. If a child has a contraindication to Tdap, Td is acceptable. If a child aged 7 through 9 years receives a dose of Tdap as part of a catch-up series, an adolescent Tdap vaccine dose **must** be administered by the 45th day following the child's 11th birthday. A dose given at age 10 will count for the 6th grade Tdap requirement. If a child 7 years or older has an incomplete DTaP primary series, please contact the Department of Health for assistance.
6. One dose of **meningococcal vaccine (MCV4)** is required for 6th-grade entry **IF** the child is 11 years old. If the child is 10 years old when entering 6th grade they have **45 days** after their 11th birthday to receive the meningococcal vaccine. If a child receives a dose at age 10 or after, the dose does not need to be repeated.

NOTE: Hib, Hepatitis A, Hepatitis B, HPV, annual Influenza, and Pneumococcal vaccines are recommended but not required.

Legal alternatives to minimum immunization requirements are defined, and the means for appropriate certification is provided for, on the face of this document. There are no other exemptions.

Contact the South Dakota Department of Health, Immunization Program, at 1-800-592-1861 (in SD only), or [email](#) with your questions. Check this [schedule](#) from the [Centers for Disease Control and Prevention](#) for a complete listing of recommended immunizations.

NOTE: Beginning with the 2016-2017 school year, there are vaccination requirements for 6th grade students in South Dakota.

It's the Rule... Shots before School!

6th Grade VACCINATION REQUIREMENTS

South Dakota requires all 6th grade students to get:

- One dose of Tetanus, Diphtheria, Pertussis (Tdap) vaccine on or after the 11th birthday
- One dose of Meningococcal (MCV4) vaccine on or after the 11th birthday

For more information, talk with your family physician or your local community health nurse about these and other vaccinations your preteen should receive.
